

PROMETHEAN – YOUR STRATEGIC PARTNER

- Education World Forum 2015 delegate brochure - quality, skills and data - a framework for educational investment.
- Transforming education to realise a vision – a country workshop approach.
- Promethean video – our passion for education.

THE LATEST THINKING TO SUPPORT POLICY DECISIONS

- Learning productivity – it is time for a breakthrough.
- Assessment competency - knowing what you know and learning analytics.
- Thinking strategically about education and technology.
- Making it happen – formative assessment and education technologies.
- Addressing student disengagement.
- From learner voice to emerging leader.

MAKING INFORMED DECISIONS

- A selection of research from across the world on the use of interactive technology to enhance educational outcomes.
- Teacher effectiveness and the use of ICT.
- Exploring classrooms and curriculum development for the future.

SHOWCASING BEST PRACTICE FROM ACROSS THE WORLD

- A school is not just bricks and mortar (UK).
- A strategic approach to ongoing change (UK).
- Empowering teacher effectiveness (Lebanon).
- Data driven decision making (UK).
- Encouraging and supporting collaboration and personalisation (Finland).
- The STEM agenda – bringing learning to life (UK).
- Embedding technology, enhancing educational aims (Turkey).

“Targeted investment in education to raise quality and assessment standards across all learning sectors is the key to progress”

Jim Marshall, Chief Executive Officer, Promethean
